

WhatsApp Order & Booking System

Orders, appointments & payments on WhatsApp

Built for India's small local businesses.
No app download for your customers.

Food • shops • clinics • home services

The problem

Phone calls and messy WhatsApp chats don't scale

Missed messages

Orders and booking requests get buried. Staff forget follow-ups.

No structure

No menu/catalog, no slots, no payment trail, no status updates.

Aggregator tax

Food brands lose 18–30% on Swiggy/Zomato for repeat customers.

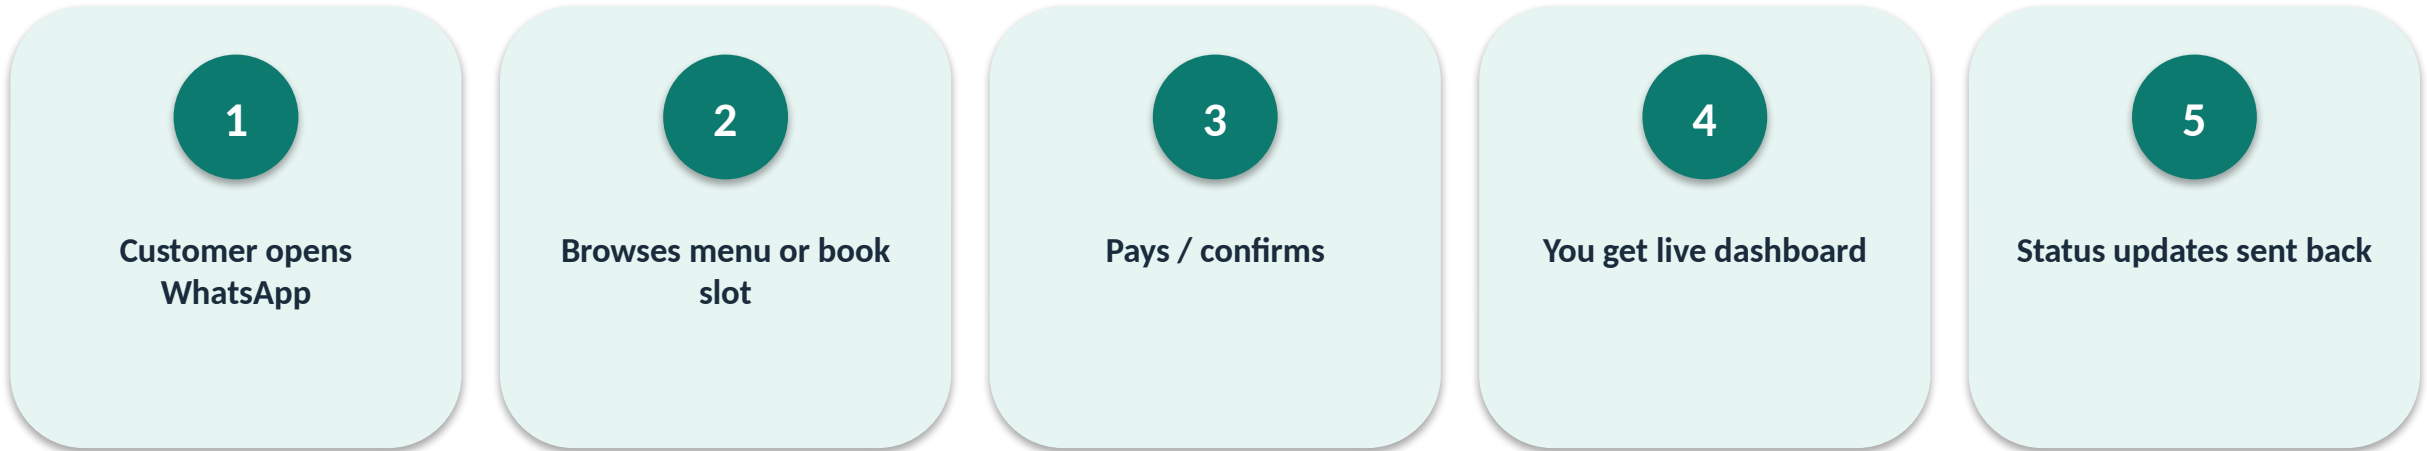

Hard to build alone

Official WhatsApp API + payments + admin is not a DIY weekend job.

The solution

Your WhatsApp number becomes the storefront / booking desk

Customer chats → picks items or a time slot → pays (UPI/Razorpay) → you get a clear ops board.

Official Meta WhatsApp Cloud API only (no unofficial bots).

Two product lines: Order (menu + cart) and Booking (appointments / slots).

Who this is for

Small local businesses already living on WhatsApp

Order-first

- Restaurants & cloud kitchens
- Tiffin / home kitchens
- Bakery & sweets
- Chicken / meat / fish
- Flower & gift
- Kirana (phase 2)

Booking-first

- Small clinics & doctors
- Dental / physio / labs
- Salons & spas
- Tuition / coaching slots
- Auto service bays
- Photo studio sessions

Repeat-service

- Laundry / dry clean
- Water can / gas refill
- AC / appliance service
- Pest control
- Home cleaning
- Tailor pickup

What you get

Not just a chatbot greeting — a working ops system

WhatsApp storefront

Buttons, lists, cart / slots, confirmations

Payments

UPI QR + Razorpay checkout (where needed)

Ops dashboard

Orders / bookings board, status, CSV export

Customer memory

Saved address / last booking, re-order / re-book

Alerts

Staff notifications + optional kitchen/desk voice alerts

Hosting included

Shared VPS + SSL on All-in Hosted plans

Plans for small businesses (India)

All-in Hosted · GST extra · Meta marketing messages billed separately

	Starter	Growth	Business
Setup (one-time)	₹4,999	₹7,999	₹12,999
Monthly (hosted)	₹1,499	₹2,499	₹3,499
Per paid order / booking	₹8	₹6	₹5
Catalog / menu items*	Up to 40	Up to 100	Up to 250
Go-live	7–10 days	10–14 days	2–3 weeks

Custom plans for bigger businesses (retail 250+ SKUs, multi-outlet, multi-doctor clinics, ERP) — contact us.

*Booking businesses: “items” = services / doctors / rooms. Hosted = shared VPS + SSL. Meta marketing & Maps add-ons extra.

Why plans cost more as you go up

Price follows complexity — not a random jump

Catalog size

More items = more categories, stock rules, testing, and WhatsApp list design.

Order / booking volume

Higher traffic needs stronger hosting share, monitoring, and support response.

Payment & offers

UPI-only is simple; Razorpay + offers + reminders add build and ops work.

Staff & locations

1 phone vs multi-staff / multi-counter needs roles, alerts, and training.

Custom rules

Cutoffs, advance pay, doctor-wise slots, delivery zones — each rule is extra build.

Support depth

Starter = email/WhatsApp help; Business includes faster response + more changes.

Plan limits at a glance

So you can match your shop size to a plan

Limit	Starter	Growth	Business
Menu / service items	40	100	250
Categories	5	10	20
Staff WhatsApp admins	1	3	6
Locations / counters	1	1	Up to 3
Razorpay checkout	Add-on / UPI	Included	Included
Offers / broadcasts*	Basic	Yes	Yes + priority
Training sessions	1	2	3
Hypercare after go-live	7 days	14 days	21 days

*Broadcasts use Meta marketing rates (client-paid). Item limits keep WhatsApp UX usable and setup effort predictable.

What's included vs extra cost

No surprises after you say yes

Included in All-in Hosted

- ▶ Shared VPS hosting + SSL
- ▶ WhatsApp Cloud API setup help
- ▶ Menu / services load (within plan limit)
- ▶ UPI payment path
- ▶ Admin dashboard
- ▶ Basic training + go-live support

Extra / client-paid

- ▶ Meta message fees (esp. marketing)
- ▶ Own custom domain (optional)
- ▶ One-page website if you don't have one
- ▶ Google Maps auto-distance
- ▶ Items beyond plan limit
- ▶ Custom workflows / integrations

Booking businesses (clinics & more)

Same WhatsApp channel — slots instead of a food menu

Patient / client picks doctor or service → date/time slot → optional advance pay → reminder + status.

Clinics

GP, dental, physio, skin, eye — reduce front-desk phone load

Diagnostics

Lab test booking + report-ready WhatsApp update

Salons / spas

Stylist + slot + advance for festivals

Coaching

Demo class / batch seat booking

Workshops

Limited seats, waitlist, reminders

Service bays

Car service / puncture appointment windows

Live reference — food ordering on official WhatsApp

Tenali home-cooked Andhra food brand — production WhatsApp ordering

Lunch/dinner cutoffs, multi-cook menu, Razorpay/UPI, kitchen dashboard, delivery status — running on Meta Cloud API (order.ammachethiruchulu.co.in).

- ▶ Proof that the stack works in a real kitchen — not a slideware demo
- ▶ Your business gets a white-label version matched to your menu or booking rules
- ▶ Live demo shown on the discovery call (we do not publish the ACR order number in the deck)

How we engage

From first call to first paid order / booking

01

Discovery

Menu or services, volumes, staff, website status

02

Plan match

Starter / Growth / Business / Custom using your limits

03

WhatsApp setup

WABA, number, Meta verification support

04

Configure & train

Load catalog/slots, dry-run with staff

05

Go live

Hypercare window based on plan

What we need from you

Same checklist we use for official WhatsApp + online payments (India)

Business registration

- Udyam certificate (PDF) — MSME
- PAN (proprietor / business)
- GSTIN if you have it
- Shop & Establishment (optional)
- Legal name + address (exact match)

WhatsApp / Meta

- Dedicated +91 mobile number
- Number free for Cloud API OTP
- Business email + phone
- Website or we build one-pager
- Privacy policy URL (required)

Payments (Razorpay / PhonePe)

- Business / current bank account
- Cancelled cheque or bank proof
- Aadhaar (prop.) if gateway asks
- Business proof (Udyam / GST)
- UPI VPA if starting UPI-only

Names/address must match across Udyam, Meta, website, and payment gateway. We guide uploads; approval is by Meta / Razorpay / PhonePe.
Also share: menu or service list, delivery/booking rules, staff WhatsApp numbers for admin alerts.

Optional add-ons

Buy only what you need

Meta-ready one-page website

₹2,999 – ₹4,999

If you don't have a site yet

Own domain connect

₹999 + domain cost

Brand URL instead of subdomain

Google Maps distance

₹999/mo or ₹0.50–1/order

Auto km fee instead of zone buttons

Extra items pack (+50)

₹1,499 one-time

When you outgrow plan catalog

Extra training session

₹999

New staff / festival rush

Custom workflow

₹1,500 – ₹2,500 / hour

Special rules beyond template

Ready to run orders or bookings on WhatsApp?

Share your menu size or appointment volume — we'll map you to Starter, Growth, Business, or a Custom plan.

Book a discovery call
